

WILD TROUT TRUST

River Aln Habitat Workshop

Northumberland

(15th December 2022)

10am – 3pm

The Wild Trout Trust will be delivering a habitat workshop on a tributary of the River Aln in Northumberland (location TBC), supported by Northumberland Rivers Trust and the Environment Agency, funded through rod licence sales and the Fisheries Improvement Programme.

The event will entail a river walk and talk to identify habitat issues currently affecting the river and general discussion around habitat management and improvements. The event is planned with local anglers in mind but is open to anyone that would like to understand more about riverine habitats.

A basic level of fitness will be required for the event, along with appropriate outdoor clothing (waterproofs, warm clothing, sturdy footwear etc) and a packed lunch.

To book a place, please email gpedley@wildtrout.org

Alternatively, contact may be possible on Mob: 07500870583
